

# Making Change Summit

SSE Making Change Summit X  
IEEE WiE International Leadership Summit

Join us for an interdisciplinary conference focused on Empowering the Changemakers of Tomorrow.

This event features multiple keynotes, workshops and seminars aimed at discussing the current problems that we face around the world, including issues around sustainability, education, and the future of technology. Conference participants will have opportunities to develop the skills required for building solutions to these challenging problems. By attending this summit, we hope that you leave inspired and empowered to create change in your community.

**May 2 - 3, 2024**

**Taylor Institute, University of Calgary**
