Join us in charting the path to Net Zero and advancing your career in Intelligent Transportation Systems. Share your insights, network with professionals, and gain valuable perspectives.

Three full day workshops in Intelligent Transportation Systems Engineering (ITSS) are organised by IEEE Women in Engineering and sponsored by the IEEE Intelligent Transportation Systems Society. These events promise a dynamic platform for students and researchers to present their work, receive feedback, and engage with experts.

Theme: Career Path to Net Zero in ITSS

Each workshop brings together pioneers from academia and industry to showcase diverse efforts towards achieving Net Zero within the realm of Intelligent Transportation Systems. It also features a panel discussion on career development ITSS, where seasoned professionals will share insights and guidance.

Submission Guidelines:

We invite you to submit your posters (size A1), spotlighting your projects, research, and innovations aligned with the theme of ITSE. Authors of accepted posters will present in person at their selected workshop either in Cairo, London, or Beijing. Accepted posters will be printed and displayed by the organisers.

Awards and Travel Support:

There are three prizes of **\$180**, **\$100**, and **\$50** for the first, second, and third best posters in each workshop, respectively.

Limited local travel expense support is available for poster presenters upon advance request via email: m.jaber@qmul.ac.uk.
