Scope of the Conference

IEEE ANTEM 2025 is co-sponsored by IEEE Canada, the IEEE Newfoundland and Labrador Section. ANTEM is a premier event for networking, exchanging ideas, & identifying future trends and developments in antennas, propagation & applied electromagnetics. The program will include distinguished lectures, special sessions on leading edge topics, one-day summer schools and a student paper competition. The language of the symposium is English.

Student Paper Competition

Students may elect to enter their manuscripts in the [Student Paper Competition](#). Details are available on the ANTEM website.

Manuscripts may be submitted in the IEEE two-column format with a length of three pages. Only accepted and presented submissions that are in the IEEE three-page format will be submitted for possible inclusion in IEEE Xplore. See the ANTEM website for additional details.
