Organized by:

IEEE R10 and
IEEE Bangalore section

IEEE WIE Global Summit 2016 at Bangalore is a meeting of women in technology from across the globe, aiming to inspire, engage and empower other women.

- ❖ The Summit coincides with the R10 Students, Young Professionals, WIE and Life Member Congresses, and with the start of Region 10 50th Anniversary Celebrations.
- ❖ The timing and co-location enable us to have exceptional speakers for the WIE Global Summit, men and women "who made it to the top", and who will share their experiences and bring the mentorship, leadership and entrepreneurship ideas as well as guidance to the younger generation– the leaders of tomorrow.
- ❖ The Summit creates exceptional opportunities for women in mid and senior positions to improve their leadership skills through networking, attending presentations, participating in workshops and finding mentors.
