

School on Artificial Intelligence applications for Earth Observation

19-23 May 2025 – Florence (IT)

- **Where:** the school will be held at the **Academy of Sciences and Drawing** (via Orsanmichele, 4, in the historic center of **Florence**, near to Santa Maria Novella Train Station).
 - **Topics:** the school will focus on **AI applications for land and sea** monitoring, including **urban** applications and **geophysical parameters** estimation, with a focus on most recent techniques as the **quantum computing**
 - **Program:** technical program and detailed information are available at the [AI school webpage](#) and on [LinkedIn](#)
 - **Organizers:** the school is organized by the Microwave Remote Sensing Center (Ce.Te.M.) in cooperation with the CNR Institute of Applied Physics (IFAC-CNR) and the IEEE GRS29-CNI and GRS29-SI Italian chapters
- **Registration form is available at [Registration/AI school/](#)**
 - **Application must be sent to: s.paloscia@ifac.cnr.it by April 15 2025**

Organizing committee:

Simonetta Paloscia (s.paloscia@ifac.cnr.it)

Simone Pettinato (s.pettinato@ifac.cnr.it)

Emanuele Santi (e.santi@ifac.cnr.it)
