

IEEE TECHNOLOGY SUMMIT 2025 CLEANTECH SOLUTIONS

2-3 OCTOBER 2025

Scottish Event Campus | Glasgow, Scotland

The 2025 IEEE Tech Summit | CleanTech Solutions is an industry-focused event uniting IEEE groups to showcase top content and foster collaboration. This two-day event offers opportunities for interesting, informative, and engaging talks, demonstrations, hands-on experiences, dialogue, and debate. Our event is interdisciplinary and at the edge of broad engineering industry focal points, cutting across topics.

BUILD CONNECTIONS AND CATALYZE IMPACT

- Network with leading researchers worldwide
- Make a lasting impact with government officials and policymakers
- Build deeper relationships with VIPs, government ministers, and IEEE global leadership
- Contribute to the advancement of clean technology for the benefit of humanity
- Play a role in shaping future policies

EXPLORE CROSS-CUTTING TOPICS

- Sustainable technologies and efficiency enhancements
- Electrification
- Energy storage solutions
- Advanced climate sensing and assessment
- Advanced grid and power systems
- Clean industrial processes

MEET KEY STAKEHOLDERS

- Entrepreneurial academics
- Leading researchers
- Industry/corporations in cleantech
- Government officials
- Policy-makers
- NGOs
- Startups

GRAND CHALLENGE COMPETITION

The IEEE CleanTech Grand Challenge offers a global platform to showcase innovative climate solutions. Participants can join the Start-Up or Ideation Track based on their innovation stage.

- For more information visit: <https://techsummit.ieee.org/cleantech-2025/competition/>
- Apply by 30 April 2025

JOIN AND PARTNER WITH US

Discover opportunities to attend, present, sponsor, exhibit, and more.
