

2025 IEEE AP-S Elections – Your Vote is Essential!

Dear IEEE AP-S Members,

The IEEE AP-S election of President-Elect and four Members to the Administrative Committee (AdCom) is ongoing. Your vote is essential as we together choose the AP Society's future direction.

If you already cast your vote, thank you so much! If you haven't, make your vote count ASAP – let's exceed last year's voter response of 20%. I can tell you that we have already significantly beat last year's turnout of this time in the process. Let's push further together, please VOTE TODAY!

In AP-S, President Elect and all AdCom Members are elected by the entire society membership, rather than appointed by AdCom. Such highly democratic election policies in our Society are pretty unique within the entire IEEE, so please take advantage of them.

Current IEEE AP Society members, including Graduate Student Members, are eligible to vote. Voting must be completed **no later than 7 October 2025** (4:00 PM Eastern Time).

The AP Society has prepared for you the Elections webpage, providing you with a quick and effective way to access and assess important information on the candidates in the election. **Please see this info at <https://ieeeaps.org/2025-election>, and then proceed with your vote.**

All candidates on the voting ballot are truly exceptional. Half of them will be elected to AP-S offices based solely on your votes.

Check our voting page at <https://ieeeaps.org/2025-election> and VOTE NOW at <https://eballot.app/ieee>

If you have any questions or experience any problems accessing the site to vote, please contact ieee-apvote@ieee.org or +1 732 562 3904.

Thank you very much for voting and for your involvement in this essential process for AP-S and its future!

Branislav Notaros
Chair, 2025 AP-S Nominations Committee
AP-S Immediate Past President
