# IEEE Swiss Computing History

## Conference and Exhibition

Do you know the history of computer developments in Switzerland?

Learn more: directly from the specialists who created innovative solutions over decades, from the experts who witnessed the fast technical evolution and from researcher analyzing the impact on society.

The exhibition will display iconic machines and documents to highlight the developments made in all parts of Switzerland.

Connect with passionate collectors, with fans of historic hardware, with debuggers and coders:

The IEEE Conference and Exhibition hosted by ENTER Technikwelt takes place during the Vintage Computer Festival.

✳ ENTER

Organized by IEEE Switzerland Life Members, with support from ENTER and VCF
