

Dear colleagues,

We are pleased to announce that the call for abstracts for the 9<sup>th</sup> Young Researchers in Magnetism is **now extended until October 3<sup>rd</sup>**. We hope this will encourage even more participants to join the conference. As in previous communications, we warmly encourage early-career researchers to submit their latest results and share them with the community in a friendly environment.

We would like to remind you that there is a registration form available online at the 9<sup>th</sup> YRinM webpage (<https://youngresearchersinmagnetism.es/registration/>). **This form must be filled out by all conference participants**, regardless of whether they submit an abstract.

Abstracts should be submitted in **both PDF and .docx formats** to [youngresearchersinmagnetism@gmail.com](mailto:youngresearchersinmagnetism@gmail.com), **using the official conference template** (available at <https://youngresearchersinmagnetism.es/abstracts/>). In your submission email, please include:

- Your name and institution
- Your career stage (MSc student, PhD student, postdoc, etc.)
- Your preferred contribution type (oral or poster)
- “Abstract YRinM2025” as the email subject line

We also remind young researchers to indicate whether they are interested in the shared bedrooms available. If you are, please indicate so in your abstract submission email and include any sharing preferences you may have. Should you be allocated a room, the organizing committee will contact you directly to confirm the arrangements.

If you have any questions, please feel free to contact the organizing committee at the same email address. We look forward to receiving your contributions.

Sincerely,

The Organizing Committee
