

5G Seminar

Is 5G a Game Changer?

27 April, 2019
10:00-12:30pm

**PES UNIVERSITY: MRD Auditorium 100 ft. Ring Road,
Banashankari III stage, Bangalore -560085**

5G is a Platform and Not a Protocol. PES University and the IEEE (Communications Society) will host a seminar on the newest cellular mobile technology 5G that is expected to upend our lives. The 5G future is fast approaching. It is far more than a generational evolution, rather, 5G represents a fundamental transformation of the role mobile technology plays in society. An estimate by the cellphone trade group GSMA suggests that there will be 1.2 billion 5G connections worldwide by 2025. Blistering speeds and low latency of 5G will rewrite the rules of Digital engagement. In 2024, Ericsson projects that 5G will reach 40% population coverage and 1.5 billion subscriptions, making it the fastest generation ever to be rolled out on a global scale. Attend and listen from the expert on various aspects of it.

SCHEDULE

Time	Talk Title	Speaker
10:00-10:30	Welcome note & IEEE initiative	Dr Vijay Kumar/Dr Navin Dean Management, PESU/ComSoc
10:30-11:00	5G Technology and Challenges	Dr Manoj Choudhary Director, Samsung
11:00-11:30	Making 5G NR a reality	Kapil Bhattad Principal Engineer/Manager, Qualcomm
11:30-12:00	Edge Computing in 5G use case and Evolution	Kannan Babu Ramia Principal Engineer, Intel
12:00-12:30	How 5G will Transform Industry Verticals?	Subhas Mondal Chief Architect Wipro Ltd
